I welcome you to the Groves Academy website. As you will see, Groves is a very special school created to help struggling students reach their true potentials. Groves students are bright, capable, charming and kind. Yet they come to Groves lacking academic skills and self-confidence. Because their learning disabilities have been misunderstood, many students enter Groves doubting their abilities to succeed in school.

At Groves, we work diligently to bring research-based, best practices to the classroom so that our students can be given what they need to be successful—expert teachers, small class sizes, and specialized curriculum. Students come to understand that they have tremendous potential and can succeed through their efforts. They feel they are no longer on the outside looking in but, instead, are part of a community of learners.

While students attend Groves to improve their academic skills and regain self-confidence, their talents are also addressed through enrichment classes and extracurricular activities. Students come to Groves not to “be fixed,” but to reach their full academic, social, emotional, and creative potentials.

Groves Academy is indeed a very special place. I invite you to come for a visit; I am sure that you will leave feeling warmed by what you observe.

John Alexander
Head of School
