## **Groves Academy Welcomes Dan Morgan as President**

*Lifelong educator brings passion and experience working with children with learning disabilities*

(ST. LOUIS PARK, MN), February 4, 2020 -- Groves Academy is excited to announce Dan Morgan will lead the organization as the new President. A proud Midwesterner, Mr. Morgan has spent his career serving students with learning disabilities across the country and the world.

“Groves Academy provides a complete model I haven’t seen anywhere else: an incredible education, the right remediation and assessment, expert teachers and trainers, and a commitment to democratizing literacy instruction” says Mr. Morgan. “Groves truly has the potential to become an international leader and revolutionize the way children are taught around the world.”

Mr. Morgan began his career at Lindamood-Bell Learning Processes in San Diego, California, working with students across the spectrum of learning disabilities for 14 years. He held many leadership positions, and moved to London to launch Lindamood-Bell’s global presence. Mr. Morgan spent the following eight years at Fusion Education Group which owns and operates private schools for children who don’t fit the traditional school model. He helped lead the organization as it doubled in size in four years.

“This is an exciting time of growth for our organization - Groves Academy, Groves Literacy Partnerships and the Learning Center,” says Megan Prindiville, Board Chair. “Dan shares our vision to redefine the way our nation is taught, one student, one teacher, and one school at a time, and his leadership will help make that vision a reality.

“I am humbled to serve the students and families of Groves and to join the mission of building confidence, success, and purpose through transformative learning experiences,” says Mr. Morgan.

Dan Morgan is originally from Madison, Wisconsin. He majored in History at the University of California, Santa Barbara. He is a dual citizen of the United States and the United Kingdom and has four children under the age of 12.

*About Groves Academy:*

Groves Academy is a nonprofit educational organization with a rich history of supporting bright students who learn differently. Groves transforms lives through education, as well as promotes best practice literacy instruction for all. The school enrolls 285 students in Grades 1 through 12. The Learning Center at Groves Academy impacts families in the community who do not attend the school but who can benefit from our expertise in diagnosing and supporting those with learning disabilities and attention disorders. Groves Literacy Partnerships shares the evidence-based teaching methods from the school with other teachers, schools, and organizations to advance literacy instruction for all learners, impacting more than 3,000 students. Groves Academy builds confidence, success, and purpose through transformative learning experiences. For more information, visit [grovesacademy.org](http://grovesacademy.org)
